## Website Scholarship Program

EpicHoster is pleased to announce we have established a new website scholarship program for authors and other small businesses. With this scholarship program, we will grant one business per month a professionally designed one-page WordPress website at no charge to the business.

Our goal of this scholarship program is to help small business owners develop new business by providing them with an appealing and professional presence on the Internet. Among other benefits to the business, this custom website will allow new customers, review sites (such as Yelp!, TripAdvisor, etc.), and search engines (such as Google, Bing, DuckDuckGo, etc.) to find the business' contact and other vital information on the Internet.

The only requirements for the recipients of this scholarship program are as follows:
1. Submit a short synopsis to EpicHoster (contact information below) on why the business could use a website and for what purpose it would be used.
2. Provide all high-resolution images and edited ready-to-be-published content and for the website.
3. Obtain the business's domain name and pay the annual fee (which can be obtained through EpicHoster.com, starting at $12.97 per year.)
4. Pay the standard hosting fee with EpicHoster hosting service. (Starting at $14/month annualized, depending on the hosting package) (No promotional codes accepted for this free website build)
5. After the complimentary scholarship website is published on the Internet, the business can either modify and maintain the website itself, or Raeghan Designs can perform such work at the business' request at a rate of $45 per hour

The business will have ownership of this website and can modify or expand it as it desires in the future. If the business wants more than a three-page website to begin with, that can be arranged with Raeghan Designs for a small additional fee.

EpicHoster is an affiliate of Raeghan Designs, a professional website design company. Raeghan Designs will design and develop this scholarship website with the collaboration of the business owner.

For more information on Raeghan Designs website design company, visit > RaeghanDesigns.com
